LITECOIN Grab this GREAT physical book now at a limited time discounted price! The last year saw a great surge in the popularity and public awareness of cryptocurrencies. Most of this hype was driven by the massive rocketing in the price of Bitcoin, the world's first cryptocurrency. While Bitcoin remains the most well-known cryptocurrency, there are several other popular and promising cryptocurrencies. One of this is Litecoin. Litecoin is an advanced, next-generation digital currency that allows anonymous and heavily encrypted transactions between people across a peer-to-peer (P2P) network. Like most other cryptocurrencies, Litecoin is based on blockchain technology and is not backed or controlled by any government, central bank, or central authority. Litecoin is an open source cryptocurrency, which means that anyone has the right to study its code, modify it, and distribute the software as they wish and for any purposes. Like any other currency, Litecoin can be offered in exchange for goods and services. Litecoin was released on 7 October 2011, two years after the release of Bitcoin. It was created by a former Google programmer known as Charles Lee in a bid...
